PROFESSIONAL EXPERIENCE

Developer

OpsTrainer

Location: Daspoort Pretoria West (June 2021 to present)

Designed and building OpsTrainer, a humanitarian training platform.

LOGISTICS, FINANCE & ADMINISTRATION

The Development Initiative (TDI) | MINUSMA Mission – Mali | 2016 – 2021 Locations:
Kidal, Timbuktu, Bamako, Gao

Kidal, Mali (September 2019 – April 2021)

- Led logistics operations for EODD, IEDD, Medical, EDD, and Recovery teams, managing administration, camp and bunker construction, and fleet operations in a complex operational area with a diverse team of 50 local and international staff.
- Orchestrated comprehensive logistical support, ensuring seamless coordination and resource delivery for multiple high-stakes projects.

- Optimized financial and administrative processes, reducing budget waste by 20% and enhancing operational transparency.
- Developed and maintained robust logistical systems, reducing team response times by 25% and significantly improving operational efficiency.
- **Outcome:** Successfully completed all operational tasks to client satisfaction, with zero incidents, in a highly challenging environment marked by complex logistical and security issues.

Timbuktu, Mali (2017 – September 2019)

- Designed and built two high-capacity bunkers, ensuring secure and sustainable facilities for personnel and Explosive Detection Dogs (EDD).
- Coordinated logistical requirements for four major projects, streamlining procurement and supply chain activities to enhance operational support.
- Established and managed asset inventories for UNMAS and TDI, supporting multiple specialized teams.
- Recruited, trained, and supervised local staff, fostering a high-performance team environment and effectively managing operational challenges.
- **Outcome:** Delivered all projects on schedule and within budget, with no equipment losses or safety incidents, despite operating under demanding conditions.

Bamako, Kidal, Gao, Timbuktu, Mali (December 2016 – 2017)

- Oversaw logistics across multiple locations, managing fleet operations, resource procurement, and administrative functions in a dynamic environment with a team of 35 local buyers, drivers, and logistical assistants.
- Implemented logistics strategies that enhanced operational efficiency and reduced downtime across various project sites.
- Optimized fleet management processes, improving equipment utilization and maintenance.
- **Outcome:** Successfully coordinated logistics for complex operations, ensuring timely and efficient execution of all tasks.

LOGISTICS MANAGER

The Development Initiative (TDI) | UNISFA Mission – South Sudan | 2012 – 2016

Abyei, South Sudan (November 2012 – May 2016)

- Directed logistics operations, managing fleet operations, resource allocation, and support for various projects in a high-risk environment.
- Developed and implemented logistics systems that improved supply chain efficiency, operational and life support for over 170 personnel.
- Managed fleet operations and procurement processes, ensuring optimal equipment performance and reliability.
- **Outcome:** Achieved successful project outcomes with enhanced logistical support, despite operating in a high-risk and resource-limited setting.

FLEET MANAGER

WH & Sons Plant Hire Division | 2009 – 2012

July 2009 – October 2012

- Managed a team of 15 personnel and all plant hire machines and equipment, overseeing maintenance, procurement, and fleet operations.
- Streamlined fleet management processes, resulting in improved equipment availability and reduced downtime.
- Negotiated and managed contracts, optimizing fleet utilization and cost-effectiveness.
- **Outcome:** Enhanced fleet operations and maintenance, contributing to overall project success and efficiency.

EARLIER ROLES:

- Logistics Manager, Administrator & Site Coordinator – WVH Plant Hire | 2008 – 2009
